Low-Fidelity Prototype:
"Bondhi - Simple Social Media for Older Adults"

1. Target Users :

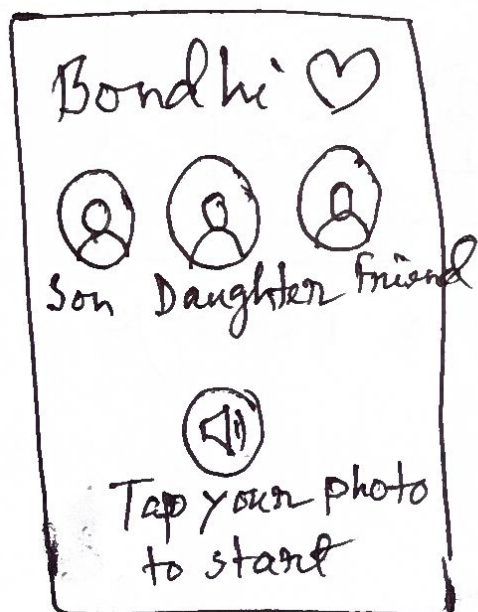

Older adults in rural Bangladesh with low literacy and limited smartphone experience. Prefer visuals and voice over text.

2. Goal :

A simple, voice-and image-based social app to help older adults connect with family, share moments and receive updates easily.

3. Key Tasks :

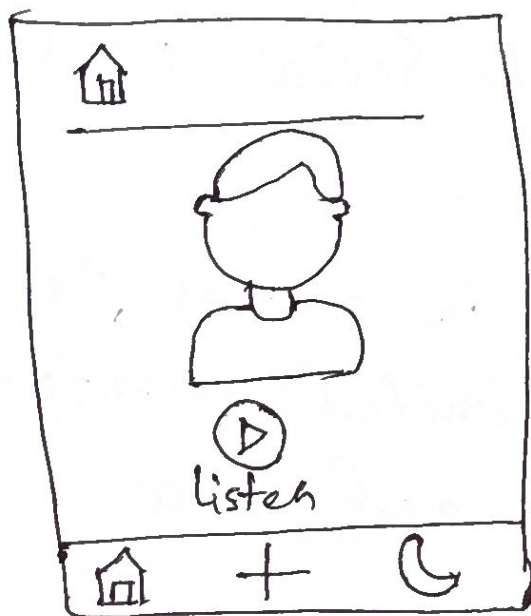

① Home / login → Photo-based entry

Main Feature: Tap your preferred photo to start like Son, Daughter, Friend.

Fig 1: Home/login

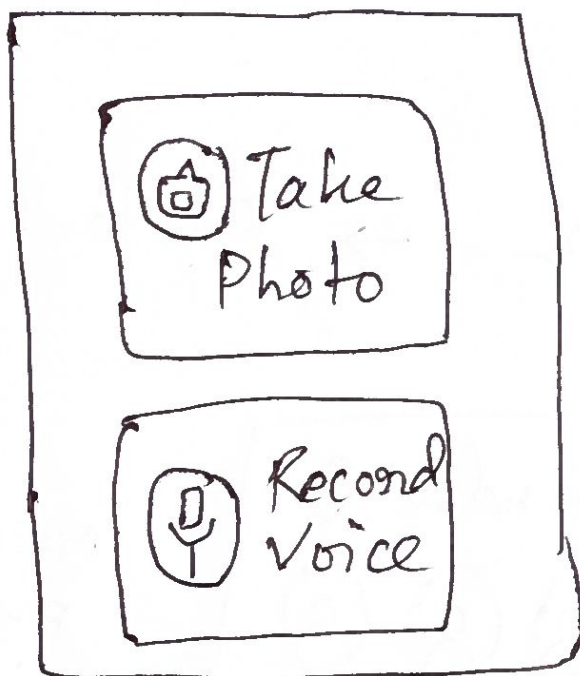

② Family Feed → View posts

Main Feature: Big images + listen button.
Bottom bar (Home, Add, Call).

Fig 2: Family Feed

③ Post Message → Share voice/photo
